

The Academy of Biomimetic Dentistry has been formed and our first annual conference will be held in Reno on October 12 - 13.

At this exciting venue we will be having great speakers, entertainment and activities. Attendees will receive a high value of 14 CE's and we will be keeping you fully immersed in Biomimetics with hands on training and break-out sessions. Please join us and invite your friends.

The speakers for our first annual conference tentatively include:
Dr. Ray Bertolotti, Dr. Van Thompson, Dr. David Alleman, Dr. Simone Deliperi,
Dr. Jeffrey Hoos, Dr. Mark Malterud, Dr. John Derango, among others.

DON'T WAIT TO REGISTER! The first 50 attendees will have their hotel room included in the price of the registration fee.

Biomimetic Dentistry

Our philosophy is that biological preservation of tooth structure is paramount.

Biomimetic Dentistry is a method of tooth restoration that emulates the physical, biomechanical and functional properties of natural teeth. It is based on science-supported and research-based dental principles. The primary goal accomplished is preserving the vitality of the tooth. Teeth are thus preserved as healthy, strong and enduring structures.

We believe in superior adhesive techniques with proper dentin sealing, thus preventing bacterial invasion.
